2025 Brochure

A smart choice

Suncomfort by Glatz

From partying with friends to simply relaxing in a deck chair and letting the world go by, fans of the great outdoors know how important it is to have the right protection from the sun.

Suncomfort by Glatz parasols benefit from over 125 years' experience of Swiss parasol manufacturer Glatz. They represent outstanding value for money and boast an unmistakable design.

Modern, user-friendly design

All parasol models in the extensive Suncomfort by Glatz range have sophisticated features and are easy and ergonomic to operate. Here you can find the right parasol for your favourite spot at home.

Durable and robust

High-quality, robust materials and complex workmanship make these parasols extremely durable. In the rare event of a defect, we have an online spare parts shop, including repair videos, so that you can enjoy your parasol for years to come.

Draw inspiration from Suncomfort by Glatz.

Fabric collection

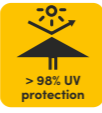

All fabrics in the Suncomfort by Glatz fabric collection offer grade 6 lightfastness (first colour changes after 160 days).

Made of 100% polyester 180 g/m², they are water-repellent and provide UV protection of more than 98%.

Varioflex Solar LED

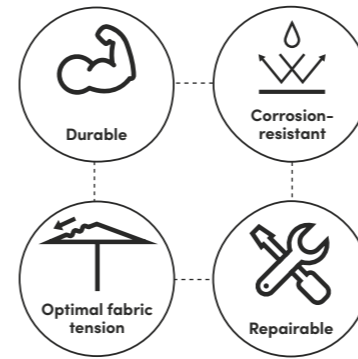

300 x 300 cm

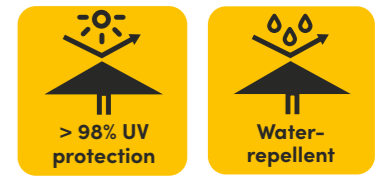

With its integrated LED lighting, the Varioflex Solar LED creates a unique, atmospheric ambience. The battery is charged conveniently by the solar panel or optional by the mains via USB, with a lighting time of around six to eight hours. Depending on the sun's position, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

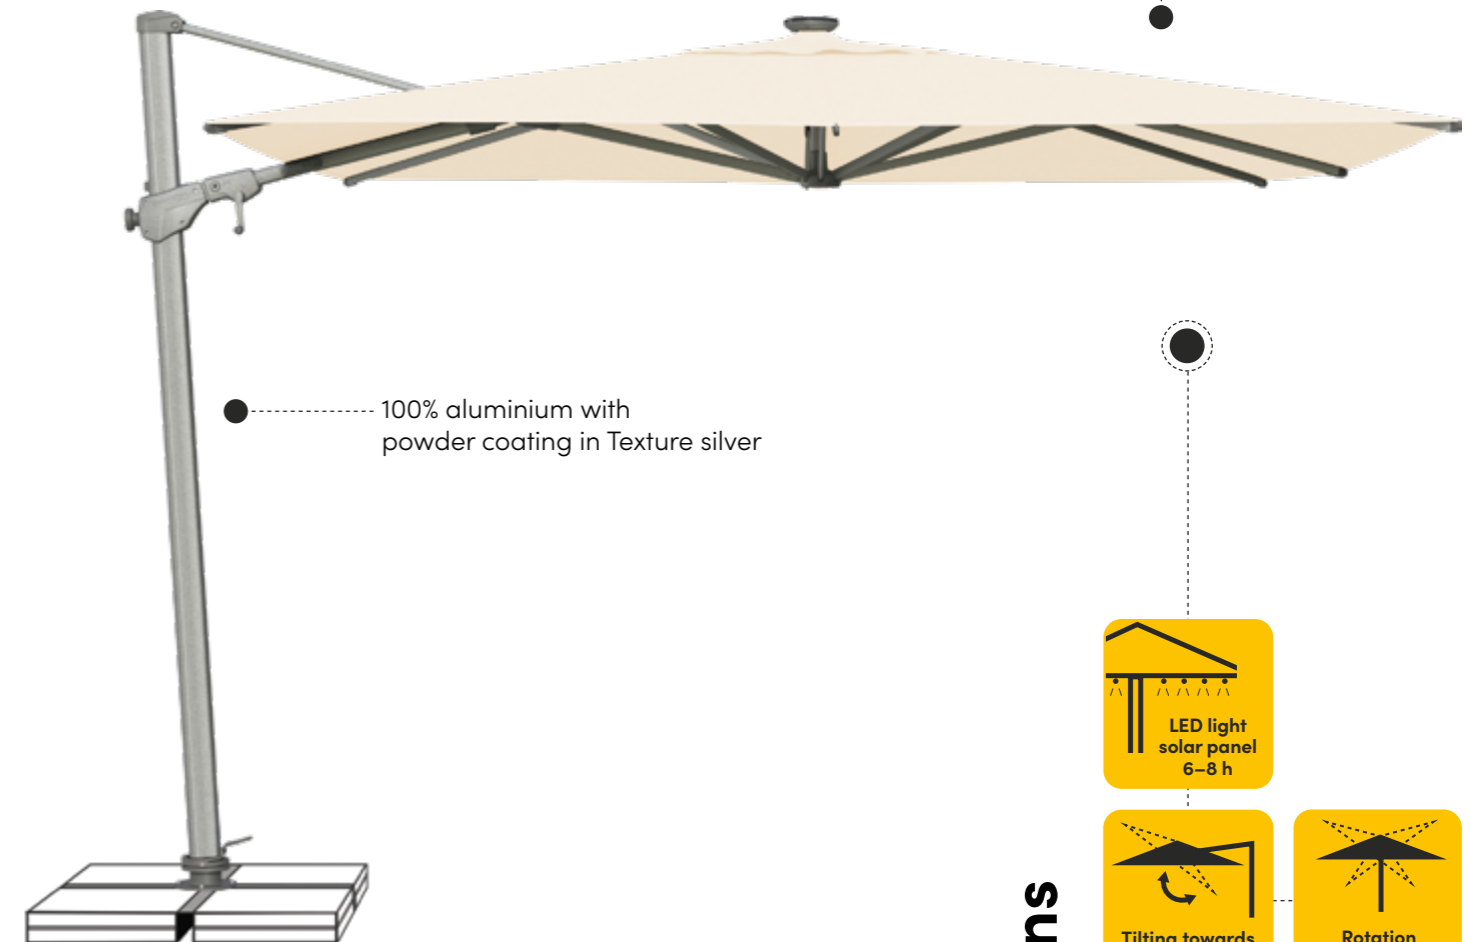

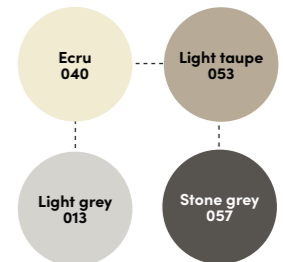

Product benefits

Fabrics and colours

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

Included in the scope of delivery

Protective cover

Turning cross base 8x (40x40x4 cm), min. 120 kg, slabs not included

Also available

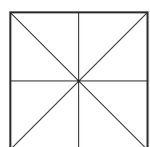

Ground socket

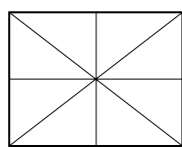

Functions

Varioflex

300 x 300 cm

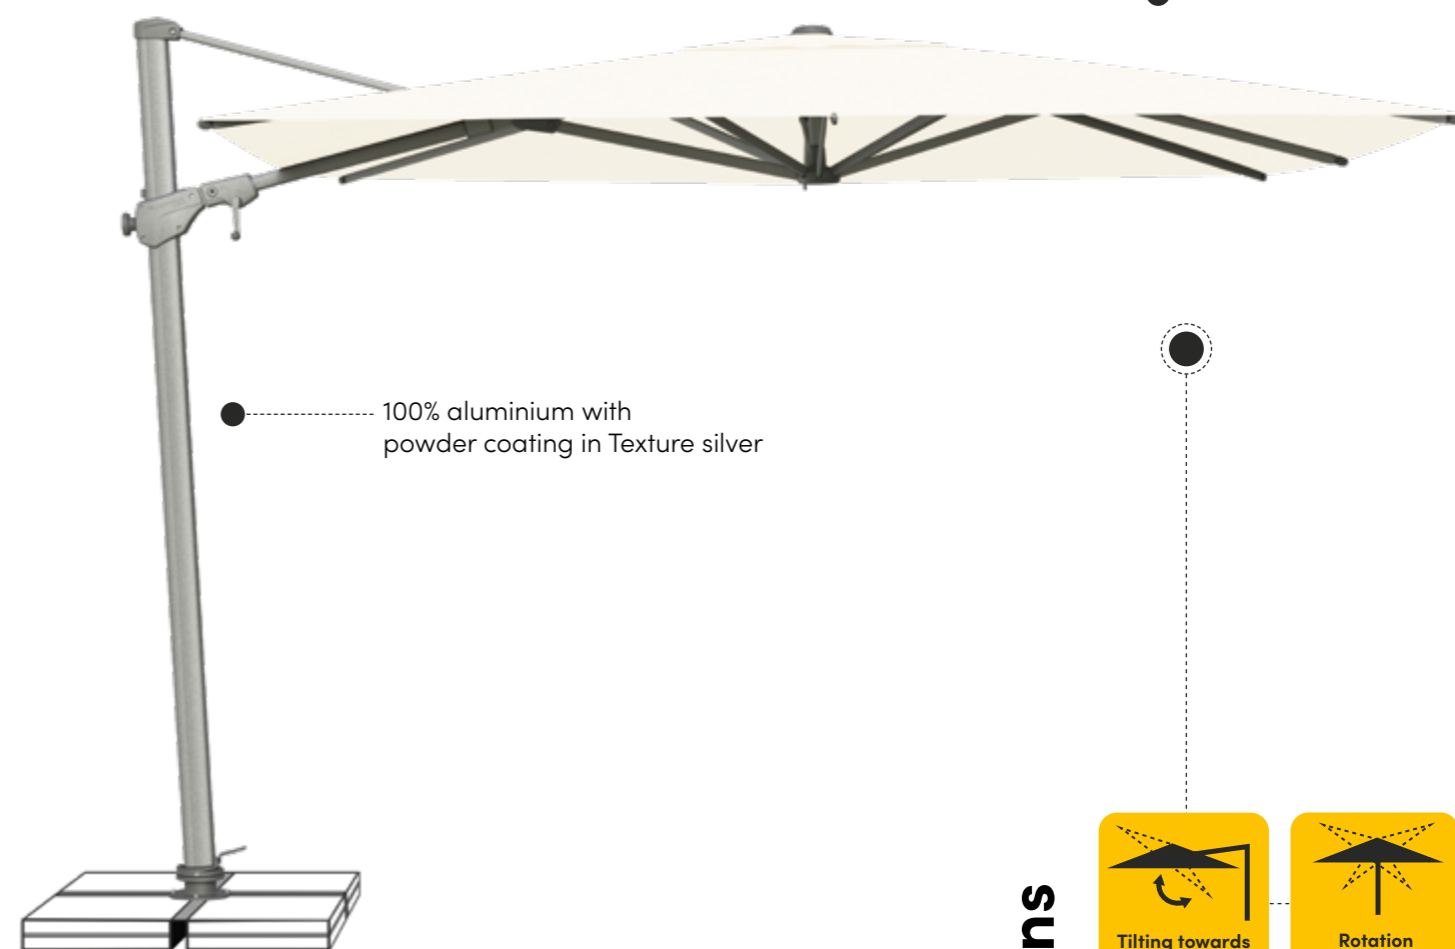

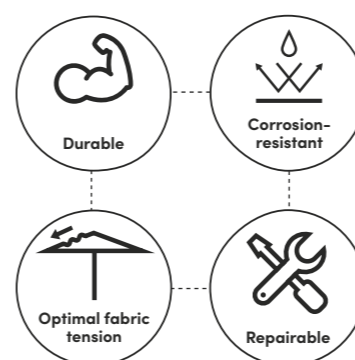

330 x 270 cm

Varioflex impresses with its flexible positioning. To provide optimum shade whatever the position of the sun, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

Fabrics and colours

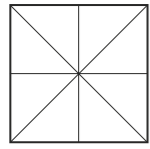

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

Functions

Sunflex

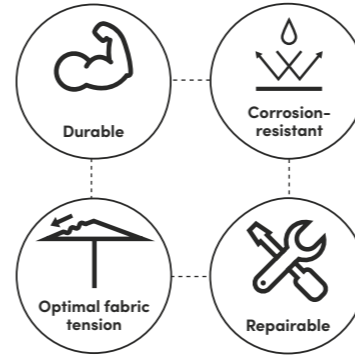

300 x 300 cm

Sunflex can be optimally adjusted to the position of the sun with effortless ease. The canopy can be tilted towards the mast via the slider, enabling Sunflex to provide shade even in the setting sun.

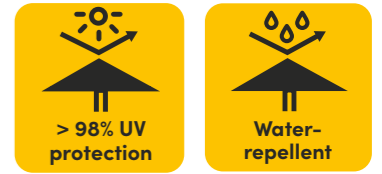

Thanks to the turning base, the parasol rotates 360° around its own axis. A crank handle is used to open and close the parasol roof.

Functions

Flex Roof

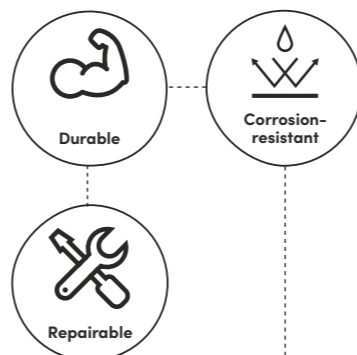

195 x 140 cm

Flex Roof is the perfect balcony parasol. It is multifunctional and with its sleek design takes up minimum space while maximising the shade it provides. The parasol roof can be opened and closed very quickly and with little effort. It can be tilted, rotated and slid in all directions. Steplessly adjustable in height, it not only provides perfect protection from the setting sun, but also ensures privacy at all times.

Product benefits

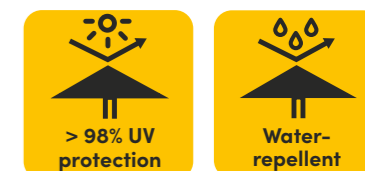

100% aluminium with powder coating in Texture silver

Also available

 Protective cover	 Balcony bracket	 Cross base 2x (40x40x4 cm), min. 30 kg, slabs not included	 Cross base 4x (40x40x4cm), min. 50kg, slabs not included

Functions

Shell Turn

Ø 300 cm
Ø 330 cm

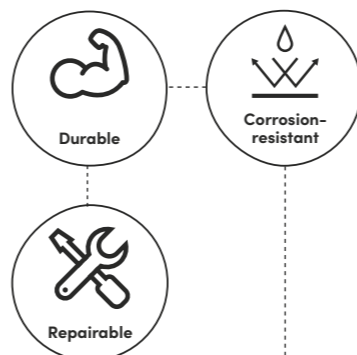

250 x 200 cm

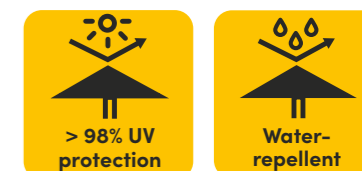

Shell Turn impresses with ease of operation at hip height. The parasol roof can be steplessly tilted via a swivel mechanism and opened and closed using the crank handle. The parasol also fits ideally on the balcony, due to its height adjustment of up to 25 cm. The bolted rib ends ensure optimum fabric tension and thus a more long-lasting canopy. Thanks to its ease of operation, the parasol is also highly popular with more delicately built customers.

Pop Up

Ø 250 cm
Ø 300 cm

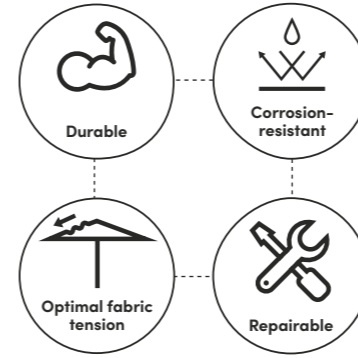

250 x 200 cm

The Pop Up is perfect for anyone looking for a high-quality and modern parasol. With the pop-up system, it can be opened and closed very quickly and with little effort. The parasol also fits ideally on the balcony, due to its height adjustment of up to 47 cm. The flat parasol roof provides a modern and elegant look. The bolted rib ends ensure optimum fabric tension and a long-lasting canopy. The aluminium parasol is particularly corrosion-resistant and comes in the modern colour Texture silver.

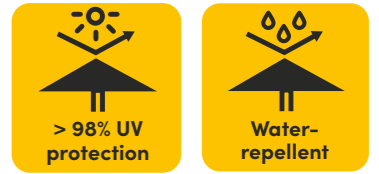

Product benefits

100% aluminium with powder coating in Texture silver

Fabrics and colours

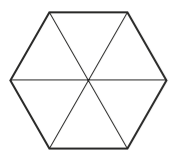

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

Functions

Slide

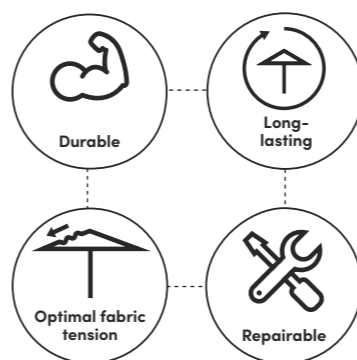

Ø 250 cm
Ø 300 cm

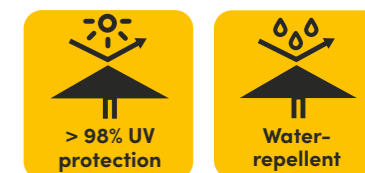

With the Slide, you can enjoy summer to the fullest. The parasol roof can be easily tilted at an ergonomic height thanks to the runner. The exclusive design with a flat parasol roof gives the parasol a modern and elegant look. The bolted rib ends ensure optimum fabric tension and thus a more long-lasting canopy. The aluminium pole and the steel frame in the modern colour Texture silver offer good corrosion resistance and robustness.

Product benefits
